

Smith Tower, After Hours

The Smith Tower, in Pioneer Square is an iconic building with a rich history, and some say it has its own share of ghostly tales!

Legend has it years ago, a young woman named Emily worked late nights in the Smith Tower. One foggy evening, she heard the sound of a typewriter coming from an empty office. Curious, she investigated and found the typewriter typing on its own, spelling out "LEAVE" repeatedly.

Suddenly, the typewriter stopped, and she felt a cold hand on her shoulder, though no one was there. Terrified, she ran out and never worked late hours again. The haunted typewriter story became a chilling legend among the night staff.

Is Your Email Box Haunted?

Exorcise the Cyber Gremlins this Month for National Cybersecurity Awareness

As the leaves turn and the nights grow longer, October brings with it the spooky season of Halloween. But did you know it's also National Cybersecurity Awareness Month? Let's identify those most common and explore how to keep your digital life safe from the ghosts and gremlins lurking in the shadows of cyberspace.

Ghostly Phishing Emails

Phishing emails are like ghosts – they can appear harmless but hide malicious intent. These spectral messages often try to trick you into revealing personal information or clicking on dangerous links. To spot these "ghosts," look for suspicious email addresses, poor grammar, and unexpected attachments. If something feels off, it probably is!

Zombie Accounts

Old, unused accounts are like zombies – they can be resurrected by hackers to wreak havoc. Regularly clean out and close any accounts you no longer use to prevent these digital zombies from causing trouble.

Exorcising the Gremlins from Your Devices – Malware Monsters

Malware can infect your devices and cause chaos, much like gremlins. To keep these monsters at bay, run regular antivirus scans and keep your software updated. This will help you catch and eliminate any lurking threats.

Password Poltergeists

Weak passwords are like poltergeists – they can cause a lot of trouble if not properly managed. Use strong, unique passwords for each of your accounts and consider using a password manager to keep track of them. This will help you keep those pesky poltergeists under control.

Spooky Cybersecurity Tips

Beware of the Dark Web

The dark web is a scary place where personal information can end up if not properly protected. Be cautious about the information you share online and use strong security measures to keep your data safe.

Two-Factor Authentication (2FA)

2FA is like a silver bullet for your online accounts. It adds an extra layer of security, making it much harder for hackers to gain access. Enable 2FA wherever possible to protect from cyber threats.

Being aware and following these tips, will help keep your digital life safe from what lurks in the cyber shadows.

Upcoming Events for October - November

October 11 - 27
Buckley Haunted Farm
Maris Farms
Buckley, WA

October 11 - November 1
My Haunted Forest
Medieval mythical beasts
Vaughn, WA

October 17
Kraken vs. Phil. Flyers
Climate Pledge Arena
Seattle, WA

October 19
Sounders vs. Port. Timbers
Lumen Field
Seattle, WA

October 27
Seahawks vs. Buffalo Bills
Lumen Field
Seattle, WA

November 6
Wicked (Musical)
Paramount Theatre
Seattle, WA

November 11
Veterans Day Parade (Free)
Mill Creek Town Center
Mill Creek, WA

November 16
Gobble Up - Craft Food
Magnuson Park

November 23 - December 23
Argosy Christmas Ship Festival
Pier 55, Shilshole Bay and other locales
Seattle, WA

Note: Check official websites and venues for details.

My Haunted Forest

And Now for a Beetlejuice Cocktail by Uncle Pete

[Watch the video](#) or make your own with these ingredients:

- 1.5 oz Mezcal
- .5 oz Dry Vermouth
- .5 oz Cynar
- .5 oz Beet Syrup
- Orange Peel for garnish
- Beet syrup is equal parts beet juice and white sugar

Beetlejuice Inspired Concepts – Find the Black Cat and Lurking Man’s Silhouette
